OSCAR FOSS MEMORIAL LIBRARY

The Trustees of the Oscar Foss Memorial Library submit the following report:

The Trustees report the conditions at the library have continued this year as in the past year, except in July, Mrs. Mable Dobrowaski was again retained as librarian. Mr. Almon Woods has continued to give good service as janitor.

The librarian has catalogued the books and at the present we have over 3,000 volumes; besides all the Bookmobile books we borrow.

Twenty new books were purchased and we hope this year many more can be bought.

The Trustees are very grateful to all those who have given the library books and magazines.

Be a Good Citizen — Cooperate

If you burn on your premises

1. Secure a permit from your local forest fire warden — the law requires it. The warden won't refuse you if conditions are safe.

2. Be sure to properly supervise your burning. Don't leave it.

3. Make certain your fire is DEAD OUT before leaving it.

Save yourself much possible difficulty.

. (B) REPORT FROM YOUR SUPERINTENDENT .

Barnstead School District

This annual report will, for the most part, be concerned with the new building project. During the past three years, we have made definite plans for a much needed school.

I wish to commend with great emphasis the efforts of your special building study committee and your school board. We have had many, many meetings together, interviewing architects, lawyers and finance people. Many hours have been spent in addition to these meetings. We have visited new schools in several communities. Some of these people have also undergone considerable personal expense in addition to actual time devoted. This joint committee, consisting of Mr. David Perkins, chairman; Mrs. Mary Gosse, secretary; Mr. John Cotton; Mr. William Jenisch; Mr. Calvin Weeks; Mr. Milton Tasker and Mrs. Virginia Davis is working harmoniously to explore all avenues of school building information. A written summary will be prepared by them and distributed for study before the annual school meeting.

Without the new school, an impossible teaching situation will exist during the coming school year. The size of our four present classrooms makes 25 pupils each a maximum number for teaching, especially in the multiple grade situation. With an elementary enrollment of 142, we would have to place 42 pupils of grades one and two together, 40 pupils of grades three and four, 35 pupils of grades five and six and 25 pupils of grades seven and eight. I firmly believe that, regardless of the quality of teaching, it is impossible to train our boys and girls adequately under such circumstances.

We need five classrooms immediately. Even with all situations in our favor, a new school cannot be ready by September. The district may consider placing grade eight at Pittsfield for a few months, until our school is ready. The situation in our neighboring town will permit this arrangement temporarily. Building costs are increasing so rapidly that further postponement will result in greater costs. Your building committee will recommend a very practical solution for your consideration.

For those not immediately concerned with teacher employment, the increasing difficulty each year in pro-

viding a qualified staff may be hard to believe. Beginning teachers are in extremely short supply. Many June graduates of our teachers' colleges already have contracts for next September. We compete with cities, wealthy towns and other states where salaries and teaching environments are excellent. Our experienced teachers are receiving equal or less than beginners, and less than teachers of similar experience in many towns in this union. Young teachers have no interest, generally, in smaller communities with heavy enrollments and several grades in a room. Even the wealthy areas cannot always find competent teachers.

I am personally grateful to Mrs. Cotton and Mrs. Alden who continue to serve our children in crowded classrooms. Mrs. Cotton is handling a most difficult situation with admirable competence. After many years of faithful service in the Barnstead schools, Mrs. Alden reaches retirement age in June. Mrs. Helen Lindberg, our grades seven and eight teacher, replacing Mr. Sloat has been seriously ill for many weeks. While we await her return, Mrs. Alma Pitman is doing a fine job in this position. We were fortunate in securing the services of Mrs. Mary Robinson, an experienced teacher, following Mrs. Pickard's resignation from the grades three and four position at Christmas time. We must provide salaries that will attract and retain good teachers at Barnstead.

The people of Barnstead are in a position to take a real step forward for the coming year. A new school becomes a real asset and demonstrates that the people have faith in a better future. Though taxes are certain to increase, we can see tangible evidence of progress for our payments. I am confident that, following careful exploration of all possibilities and recommendations, you will vote wisely for a progressive community.

PART V. AUXILIARY ACTIVITIES AND SPECIAL REPORTS SCHOOL HEALTH REPORT

To the townspeople, school board and superintendent of schools of Barnstead:

The following is my sixth annual report of the school health work of Barnstead.

In the spring of 1956 our school was invaded by three types of communicable diseases: chickenpox, German measles and whooping cough; thus, causing a large percentage of absence among the pupils.

In April 1956, the State Department of Health conducted a polio clinic in our town.

During the autumn months of 1956, the attendance in school has been good. Scattered colds and the flu have been the cause of those absent due to illness.

The New Hampshire Tuberculosis Association conducted a TB patch test in September, and we had no positive reactors in the testing program.

The State Department of Health conducted a second polio clinic in November 1956. A total of 52 school children at Barnstead have had their complete polio vaccination with three shots. As it is uncertain that we will have any more free polio clinics, it is hoped that the children who have had only one or two shots will get the remaining shots from their family physician so that the youngsters can be protected before next polio season.

This year Barnstead got \$100 from the State for a dental clinic. Unfortunately that sum does not take care of all the children who need dental care. However, it is encouraging to see that more and more children get dental attention through their family dentist. It is hoped that the school health program, by means of health education, will teach the future generation the importance of good dental health, which can be obtained through good nutrition, semi-annual visits to the dentist and daily oral hygiene.

The routine vision testing is done every year and defects found have been followed through, either by the family physician or through our Sight Conservation Program. The audiometer is used for the hearing testing. The health program for our deaf and

other handicapped children is a big problem facing the school nurses throughout the state. Support is greatly needed from everybody to carry out the program intelligently and as effectively as possible so that these unfortunate children can be helped and educated.

Physical examinations are done every spring by Dr. Quinn. The general health of the children is good.

Weighing and measuring, individual inspections, home visits, nurses' meetings, conferences with school and health officials are also part of school health service.

In closing, I wish to thank all of you who have helped with the school health program, a program that no person can carry out alone.

Respectfully submitted,

ANNIE L. ROSENQUIST, R. N.
School Nurse
